We want your feedback on the Government's proposed Three Waters Reform, including whether we should opt-in or opt-out, based on the information we have available to date.

Most importantly, we're keen to know the reasons for your decision. This is so that we have a very clear understanding of your views when we give our feedback to the Government.

Option 1 – Opt in

I think the Council should opt-in to the Government's proposed Three Waters Reform.

Please tell us why you chose this option:

- I believe that we should be providing the same level of service for three waters across all of New Zealand
- I feel that I will get better value for money by merging 67 councils into four large entities
- I can see advantages of combining three waters assets into four large entities
- It will improve efficiencies across three waters services
- I think the new three waters entity will be better able to keep up with increased regulations and requirements
- Other - please state.

Option 2 – Opt-out

I think the Council should opt-out of the Government's proposed Three Waters Reform.

Please tell us why you chose this option:

- I'm concerned we won't have a strong democratic say in the way three waters services are provided
- I want our three waters services to be managed, built and operated locally, by people who understand our area
- I'm worried our water rates will end up funding upgrades in other areas
- I don't think it will improve efficiencies
- I think we should hold off on any decisions and consider this alongside the wider future for Local Government Review and Resource Management Act (RMA) reform
- Other - please state.

Option 3 – Undecided

- Other - please state.

a thinking job only forget it
all the mess up n z e d, ministry of works honestly all costs more.

Option 3 – Undecided

Comments:

all the things in the past were, supposed to make things cheaper, but all they ever did was to make things more expensive, & make ones life much harder.
