We want your feedback on the Government's proposed Three Waters Reform, including whether we should opt-in or opt-out, based on the information we have available to date.

Most importantly, we're keen to know the reasons for your decision. This is so that we have a very clear understanding of your views when we give our feedback to the Government.

Option 1 – Opt in

I think the Council should opt-in to the Government's proposed Three Waters Reform.

Please tell us why you chose this option:

- I believe that we should be providing the same level of service for three waters across all of New Zealand
- I feel that I will get better value for money by merging 67 councils into four large entities
- I can see advantages of combining three waters assets into four large entities
- It will improve efficiencies across three waters services
- I think the new three waters entity will be better able to keep up with increased regulations and requirements
- Other - please state.

Option 2 – Opt-out

I think the Council should opt-out of the Government's proposed Three Waters Reform.

Please tell us why you chose this option:

- I'm concerned we won't have a strong democratic say in the way three waters services are provided
- I want our three waters services to be managed, built and operated locally, by people who understand our area
- I'm worried our water rates will end up funding upgrades in other areas
- I don't think it will improve efficiencies
- I think we should hold off on any decisions and consider this alongside the wider future for Local Government Review and Resource Management Act (RMA) reform
- Other - please state.

Option 3 – Undecided

"If it ain't broke don't fix it" as my late grandfather would say. If this goes ahead it will be a total disaster, the track record of our govt has shown over and over again they have little or no business sense so it would be doomed before it got off the start line. I want Westland DC to steer well clear of this disaster in the making.

This is rushed, put forward while the entire country is distracted by covid, financial pressures and emotional and personal pressures.

The payment offered is pitiful and embarrassing compared to the assets worth.

I want my rates spent in this district.

I'm concerned in the future our precious water will be sold off shore, and while I'm on this topic, I've always felt Westland could be one of the wealthiest districts in this country through selling our resource.

Why have we not done this?

I'm concerned if this is pushed through, in the future there could be restrictions and charges on

collecting rain water.
Just NO.

Comments Westland has a small rating base with some precarious waters assets vulnerable to extreme floods and earthquake. Opting in will increase the likelihood of investment in their resilience &/or repair and re-instatement after a serious event. It will also make it easier to upgrade substandard assets.

We want your feedback on the Government's proposed Three Waters Reform, including whether we should opt-in or opt-out, based on the information we have available to date.

Most importantly, we're keen to know the reasons for your decision. This is so that we have a very clear understanding of your views when we give our feedback to the Government.

Option 1 – Opt in

I think the Council should opt-in to the Government's proposed Three Waters Reform.

Please tell us why you chose this option:

- I believe that we should be providing the same level of service for three waters across all of New Zealand
- I feel that I will get better value for money by merging 67 councils into four large entities ??
- I can see advantages of combining three waters assets into four large entities
- It will improve efficiencies across three waters services
- I think the new three waters entity will be better able to keep up with increased regulations and requirements
- Other - please state.

Option 2 – Opt-out

I think the Council should opt-out of the Government's proposed Three Waters Reform.

Please tell us why you chose this option:

- I'm concerned we won't have a strong democratic say in the way three waters services are provided
- I want our three waters services to be managed, built and operated locally, by people who understand our area
- I'm worried our water rates will end up funding upgrades in other areas
- I don't think it will improve efficiencies
- I think we should hold off on any decisions and consider this alongside the wider future for Local Government Review and Resource Management Act (RMA) reform

Other - please state. \$160 billion loan debt to organise the new institution looks to dump the repayments onto ratepayers through inflated charges for water use in its 3 forms of water/sewage/stormwater

Option 3 – Undecided

- Other - please state.
Labour governments nationalise thing and then National get in and sell them off - to overseas or rich NZers, who then run them for profit, costing us more for things we've paid for in the first place.

We want your feedback on the Government's proposed Three Waters Reform, including whether we should opt-in or opt-out, based on the information we have available to date.

Most importantly, we're keen to know the reasons for your decision. This is so that we have a very clear understanding of your views when we give our feedback to the Government.

Option 1 – Opt in

I think the Council should opt-in to the Government's proposed Three Waters Reform.

Please tell us why you chose this option:

- I believe that we should be providing the same level of service for three waters across all of New Zealand
- I feel that I will get better value for money by merging 67 councils into four large entities
- I can see advantages of combining three waters assets into four large entities
- It will improve efficiencies across three waters services
- I think the new three waters entity will be better able to keep up with increased regulations and requirements
- Other - please state.

Option 2 – Opt-out

I think the Council should opt-out of the Government's proposed Three Waters Reform.

Please tell us why you chose this option:

- I'm concerned we won't have a strong democratic say in the way three waters services are provided
- I want our three waters services to be managed, built and operated locally, by people who understand our area
- I'm worried our water rates will end up funding upgrades in other areas
- I don't think it will improve efficiencies
- I think we should hold off on any decisions and consider this alongside the wider future for Local Government Review and Resource Management Act (RMA) reform
- Other - please state.

Control from Wellington will be manipulative and political

Option 3 – Undecided
